

## Personally Living the Fatima Message

We must do all we can to spread Our Lady's urgent Fatima Message. Also, we must strive to live the Message ourselves spiritually through frequent Confession, Holy Mass, Holy Communion, and adoration of the Blessed Sacrament, as well as, daily Recitation of the Holy Rosary.

It is now over 30 years since *The Fatima Crusader* started to publish the Message of Fatima.

We pray you will be touched by this issue to renew your personal fervent adherence to, support for and enthusiastic promotion of Our Blessed Mother's Message of Fatima.

Although some may think that no progress has been made to bring about Our Lady's triumph, this issue should help overcome that false impression. In the lead article "Now is the Time," starting on page 3, you will see that other Catholic publications now also have a better understanding of Fatima.

Inside the walls of the Vatican there is a battle going on. There are those who want to obey Our Lady of Fatima and those who think they know better than the Mother of God. The only excuse that the opponents of Our Lady of Fatima offer for not obeying the solemn command to consecrate Russia, given by the Most Holy Trinity, is that "we do not wish to offend the Orthodox." This excuse is exposed in the article, "Now is the Time" for what it is – a fallacious reason, an empty excuse that no longer has any credibility. Read this article and pass it on, and **pray, pray, pray!**
