

### Our Mother of Perpetual Help

Especially during these dangerous times of wars and threats of wars, Our Lady's children turn to Her for protection and consolation.

A friend of the Fatima Center who lived in London, England during World War II told us this beautiful story that fortifies Lucy of Fatima's statement: "Our Lady will take care of Her dear ones."

Amidst the horror and destruction from bombs, she organized a prayer group to meet once a week, praying for the intercession of Our Mother of Perpetual Help. A few came but many did not. Although a large number of people were killed and homes destroyed, not one of those who came and prayed to Our Mother of Perpetual Help were harmed, nor were their homes or possessions lost.

**O Mother of Perpetual Help – We place our trust in Thee**
